

ABORIGINAL ART YEAR 3

As part of multi-cultural week, Year 3 developed their understanding of aboriginal art work. We learnt that the aborigines liked to tell stories through their paintings using special symbols made from lines and dots. We looked at the meanings of the symbols and used them to tell the stories within each painting. Although a lot of their art work was painted in natural, earthy colours (as they used natural ingredients to make their own paint), there were still a lot of samples with bright and vivid colours. We were amazing by the vibrancy, patterns and attention to detail in their work and with this in mind, we had lots of fun creating our own versions in paint as well as in ICT!
