

11th September 2017

Dear Parents/Carers,

As part of our drive to improve communication, I am writing to remind you that we now have our own “free to download” Montem Academy app!

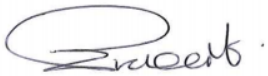

We believe the app will be a great communication tool between the school and parents, carers, grandparents and even childminders.

The app does enable you to select which year groups you wish to receive information from (instructions provided overleaf).

The new Montem Academy app has been introduced as a way of continuing to ensure that communication to parents/carers is as effective as it can be.

We do hope you will find it of value.

Yours sincerely

Ms A. Probert
Principal
