

# YEAR 3

## Element :FIRE

**Year 3 will be focusing on Fire. We will be looking at forest fires and the devastation they cause.**

**Within this unit of work the children will have the opportunity to explore the element through different subjects in the curriculum.**

### Geography

**Through our Geography lessons the children will have the opportunity to engage in kinaesthetic and visual lessons. They will be able to enhance their map work skills by exploring forest fires across the globe. This in turn will help with their Geographical knowledge of the world.**

### Literacy

**During Literacy lessons, the children will be writing a narrative based on the highly engaging text 'Francis the Firefly. Furthermore, they will be enhancing their punctuation and descriptive language.**

### Science

**In Science we will be studying what components are needed for a fire to burn. The children will also be exploring and discussing how harmful and useful fires can be. The science skills they will be looking at in particular are investigating and exploring through the use of evidence.**
