

### Experiments:

A substance called **ubleck** has just been found and we want to find out what state of matter it is.

### Maths:

Children to present their findings from experiments into different charts, graphs and tables and draw conclusions from them.

## Year 4 Science Day!

### Literacy:

To write a discussion on the state of matter that **ubleck** is and draw a conclusion,

### Art:

Children will use diagrams to present their findings about **ubleck**.
